Whirlpool® Energy-Efficient Air Handlers

Find Your Comfort Zone

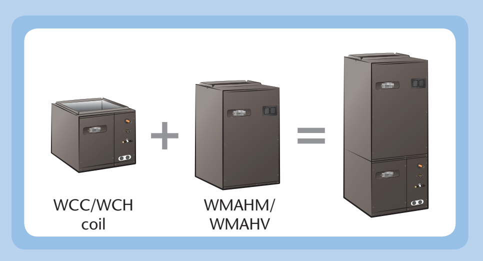

WAHMS, WAHME, WAHMV, WMAHM & WMAHV Series Air Handlers

Energy-Efficient Air Handlers

Fresh Air Comfort, Whatever the Season

Like all Whirlpool® Home Cooling and Heating products, our Air Handlers are designed with your year-round comfort in mind. Working in tandem with an outdoor air conditioner or heat pump, these units quietly and efficiently circulate air throughout the home. Available as complete 1-piece units or as modular 2-piece blowers designed to be paired with a matched coil, sizes range from 1.5–5 tons.

Whirlpool® WAHMS, WAHME & WAHMV Series
1-Piece Air Handlers

- **Air Conditioning & Heat Pump Applications**
  Sizes range from 1.5–5 tons. Multi-position for upflow, downflow and horizontal installations.
- **Drain Pan with Secondary Connection**
  Allows drainage even when primary pan is plugged; secondary connection provides broader installation options.
- **Steel Cabinet with DuraShield™ Coating**
  Offers a low cabinet air leak rating and long-lasting durability that resists scratches and rust.
- **Multi-Speed PSC Direct-Drive Motor** (WAHMS Series)
  Enables air circulation at multiple speeds for greater comfort and operating efficiency.
- **Programmed Multi-Speed EEM Direct-Drive Motor** (WAHME Series)
  Starts softly on low speed while gradually ramping up for reliable, long-term performance and efficiency.
- **Variable Speed ECM Direct-Drive Motor** (WAHMV Series)
  Starts softly on low speed while gradually ramping up to optimal performance. Offers infinite settings for increased comfort, quieter operation and energy savings when compared to conventional motors.
- **Adjustable Airflow Settings** (WAHMV Series)
  Optimizes airflow by means of 14 field-selectable settings, providing greater operational efficiency and increased comfort.
- **Built-in Fan Time Delay Relay**
  Increases the SEER rating by optimizing efficiency.
- **Auxiliary Electric Heat**
  Accepts electric heat kits from 3kw–21kw as field-installed options.

Whirlpool® WMAHM & WMAHV Series
2-Piece Modular Blowers

- **Air Conditioning & Heat Pump Applications**
  Sizes range from 1.5–5 tons. Multi-position for upflow, downflow and horizontal installations.
- **Steel Cabinet with DuraShield™ Coating**
  Offers a low cabinet air leak rating and long-lasting durability that resists scratches and rust.
- **Foil-Faced Insulated Cabinet Lining**
  Helps minimize operating sound and reduce possible cabinet condensation build-up.
- **Multi-Speed PSC Direct-Drive Motor** (WMAHM Series)
  Enables air circulation at multiple speeds for greater comfort and operating efficiency.
- **Variable Speed ECM Direct-Drive Motor** (WMAHV Series)
  Starts softly on low speed while gradually ramping up to optimal performance. Offers infinite settings for increased comfort, quieter operation and energy savings when compared to conventional motors.
- **Built-in Fan Time Delay Relay**
  Increases the SEER rating by optimizing efficiency.
- **Auxiliary Electric Heat**
  Accepts electric heat kits from 3kw–21kw as field-installed options.
